## Christmas Guide

[WWW.GURLGONEGREEN.COM](http://WWW.GURLGONEGREEN.COM)

a word from  
**GURL  
GONE  
GREEN**

So you may be wondering what is this Christmas Guide all about? Well, allow me to explain. I wanted to have a guide for Christmas that would have all the latest promotions, sales and special deals happening during the holidays. Plus, list out my favorites, budget friendly picks and where you can purchase them. A one stop guide for all things green. Basically, a super organized list of Christmas ideas, and sales. All the links to the websites are provided, as well as the coupon code. This guide will give you the heads up on all the sales and what to look for. No more frantically scouring the sites looking for the latest promotion-I've done the homework so you don't have too.

I've included not only online retailers that carry multiple brands, but also individual brands themselves. You'll see all of those first. I let you know what they carry, how much you can expect to pay, using \$ signs, and my faves from them. As you scroll down I also include a ton of gift ideas, where I show you a pic., give you a description and include a link. I've got everything from stocking stuffers to going green in your home. (Some retailers are not having any promos, so you may not see any coupon codes. Others don't reveal them until the day of and some of them just didn't respond to my e-mail).

The best deals are listed below and you'll have access to them all! So what are you waiting for?? It's time to SHOP!

Their products aren't complicated, and you can pronounce nearly all of the ingredients. Here are some of my faves:

# Kure B A Z A A R

## Kure Bazaar- \$\$ Nail Polish

Kure was one of the first natural nail polishes I switched over too when going green. The polishes are made in France. They are made from a combination of wood pulp, cotton, wheat, corn and potatoes. They offer a wide range of colors. The polishes are quick drying and give a nice shine too. The nail polish still has a smell, but is free from all the nasties. Here are some of my fave colors:

- **Fabulous**- A bright pink that I wear non-stop in the spring and summer.
- **Phenomenal**- A dark rich plum that is perfect for fall and winter.
- **Chloe**- I love this color year round. It's a great gray neutral.

Shop Kure Bazaar at The Detox Market here: [THEDETOXMARKET.COM/KURE](http://THEDETOXMARKET.COM/KURE)

## Honey Bee Gardens- \$\$ Nail Polish, Makeup

Honey Bee Gardens carries makeup and nail polish. The cool thing about their nail polish is that it's water based, instead of solvent based. There is virtually no smell! Since it is water based you just need rubbing alcohol or their nail polish remover that they sell to remove the polish. Their prices are more budget friendly than some too. I also really like their Truly Natural Mascara. It doesn't smudge once it's dry and it's one of the most budget friendly ones I've found in green beauty. Here are some of my faves:

- **Nail Polish-** Really love the color Abyss-a true black.
- **Truly Natural Mascara-** As I mentioned, I really love the formula of this mascara. Give definition and separates.

### **Organic Bunny- \$\$ Beauty Box**

This is a fun one! If you don't know Organic Bunny you should. She offers great tips and info. on all natural/organic beauty products and more. She created a beauty box that started this last October and it's taken off. She sold out of her first and second boxes in record time. It's a little more spendy then the boxes I mentioned above but well worth it. I would recommend this box for the green beauty lover. In this box you get 5-6 full size products, not trial size and they're all of Amanda's (Organic Bunny's) favorites-so you know they're going to be good! I received her first box and was super impressed. Not only are all the products on point as far as clean and green but the box is SO pretty! Plus, you are getting so much more in return, compared to the amount you pay each month. If you know a green goddess in your life, then they would love this box!

Shop here for all the latest Organic Bunny Boxes: [THEORGANICBUNNYBOX.COM](http://THEORGANICBUNNYBOX.COM)

### **Beauty Heroes- \$\$ A monthly subscription Beauty Box**

This beauty box really takes their product choices seriously-something I love! Each month there is a different Beauty Hero product. Their concept is for you to really be able to experience the product in it's entirety, instead of several products at once. You get a full size product each month, and a write up of why its such a beauty hero. I love that you get full sized products, and you know they're amazing because they've been carefully selected. Beauty Heroes was founded by Jeannie Jarnot-a longtime spa director herself. It's such a good deal too! \$39 a month for the subscription-you are well exceeding that every month with the Beauty Hero product you receive. If you love to indulge in spa worthy non-toxic products, and not get overwhelmed by 5 plus products a month, this is your beauty box.

# the detox market

### **The Detox Market.**

This is one of the online green beauty stores that also has a storefront. One in Los Angeles and one in Toronto. You can pretty much find anything your green beauty heart desires here! The Detox Market was one of the first green beauty retailers. They host a ton of green beauty events and have the latest on all the products. You can find all the high end brands here. Also, if you sign up for their newsletter, you automatically get 30% off your first purchase—a crazy good deal! They don't offer every green beauty brand, but they offer some really good staples like W3ll People, Jane Iredale and Gabriel/ZuZu luxe. Such a great overall shop for those on a budget. # LOTUSWEI™

## Lotus Wei- \$\$ Flower Essence Fragrance/Perfume Oils and Sprays

Lotus Wei was founded by Katie Hess, a flower alchemist. She founded it in 2000 and since you can find Lotus Wei in 12 different countries. She studied under some of the top flower essence practitioners. What she's learned she's brought to life in her creations with Lotus Wei. These potent flower essences are completely all natural and evoke different emotions depending on the flower type. I'm so intrigued and in awe of the power of flower essences. With so many toxic synthetic fragrances out there, it's so wonderful Lotus Wei is raising the bar. They offer mists, oils, and perfumes. Whether you're wanting to feel more peace or just wanting to smell good Lotus Wei has it all. Here are some of my faves:

- **Infinite Love Mist**- I love how this smells! With rose, mandarin and honey- it is truly decadent. It attracts love in your life, more love for yourself, others. I spray this on me and around me everyday. An instant pick me up!

I haven't tried any other products at the moment but so want too! Haha, I have a list just for Lotus Wei.

## Wei of Chocolate

**WEI of Chocolate**- \$\$ Chocolate(organic, vegan, fair trade and free of dairy, soy, GMO's and gluten)

Wei of Chocolate is actually a sister company of Lotus Wei. The flower essences are infused into the chocolate. This chocolate takes the cake in my opinion. Not only is it completely healthy for you, yes you heard me right but Wei of Chocolate is all about savoring the moment. I learned from them that you actually can't absorb the

beneficial antioxidants from chocolate if it has dairy in it. They offer so much knowledge that far exceeds just buying another chocolate bar from the store. They offer small pieces that are meant to be savored and melt in your mouth. You can buy just dark chocolate or you can try an infused chocolate, like chai spice or peppermint. Wei of Chocolate was created by Lisa Reinhardt. She studied meditation in the Himalayas for 11 years and wanted to bring what she learned back to the states. She incorporates chocolate as part of a ritual in everyday life...sign me up! Here are some of my faves:

- **Wei Pure-** This is their 70% dark chocolate, there is no infusion in this one. It's just pure, luscious goodness. It's so smooth too, compared to other dark chocolate I've had-a true treat! This chocolate brings you joy, strength and inspiration with the added flower essences from Lotus Wei.

I haven't tried any other flavors yet but have my eye on Wei Beautiful-a peppermint chocolate and Wei Gratitude a chai spice.

They also offer a monthly subscription box. You get it each month, so you can have a piece of chocolate a day. How amazing is that?!

\*For the holidays Wei of Chocolate is offering:

**15% off from Black Friday-Cyber Monday**

Use Code: **greenisblack**

*Also, if you order a subscription box you will get 20% off!*

**Green Tidings Deodorant-** \$\$ **My absolute favorite deodorant and I've tried a ton!**

If you've followed me long enough you know I'm obsessed with this stuff. Green Tidings sent me some deodorant about 6 months ago, and since then I've been hooked. This stuff is the real deal! Finding a natural deodorant was hard. Even if one deodorant worked, it wasn't perfect. It might be in a jar and not a stick-which gets

tedious. Or it might irritate my arms every now and then. But with Green Tidings, nothing is wrong...haha I know a big statement but one that is so true. It literally exceeds all my requirements! For starters, it's in a stick -which as a mom is super convenient. It goes on so smooth, no having to scrape my arms in order to get it to go on. I get no irritation from it and best of all, I don't smell! I've recommended it to so many people and they all say the same thing...they love it! It comes in Lavender and Unscented. I love both! \*For the holidays Green Tidings is offering:

**15% off entire purchase on amazon.com starting 11/18-12/26**

Use Code: [gurl2015](#)(Please note that this discount code applies to „single“ deodorants only. Does NOT apply to our already discount „3-packs“ (3-packs are already priced at a 15% discount. You cannot „layer“ the discount with this promotional code being offered by GurlGoneGreen).

**InVitamin-** \$ [Skin care, teeth](#)

InVitamin is really set on making a difference when it comes to the quality of their products. They make them in small batches and use everything they make in their own homes. Their ingredients are always so clean and the products work. Here are some of my faves:

- **WooBamboo Toothbrush-** I really love this toothbrush. It's not made of any plastic but bamboo.
- **Wintergreen Tooth and Gum Powder-** It's made of activated charcoal that not only draws toxins from your teeth and gums but also whitens them.
